Your code

```
 1  from django_summernote.widgets import SummernoteWidget, SummernoteInplaceWidget
 2  from django import forms
 3  from .models import Workout
 4
 5
 6  class WorkoutForm(forms.ModelForm):
 7      """
 8      Form to create new workout posts
 9      """
10      class Meta:
11          model = Workout
12          fields = ["title", "content",
13                    "category", "length", "participants", "equipment"]
14          widgets = {
15              "equipment": forms.RadioSelect(),
```
